

making a difference

Premier Health Employee Giving

Dear Friend:

We are writing to let you know about an important transition in the traditional employee giving campaigns at each of our hospitals. As employees continue Coming Together across the system and come together as one culture, the Premier Health foundations are taking a unified approach to our traditional employee giving campaigns.

This year, the Employee Friends Campaign, The Mueller Society, Atrium's Employee Giving Campaign, and Sharing PLUS will change into the **Premier Health Employee Giving Campaign**, a consolidated, system-wide fundraising campaign. While it will have a new look, the purpose remains the same: to allow Premier Health employees to contribute to programs benefitting our patients, co-workers, volunteers and community programs.

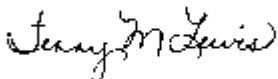

Your gift to the 2018 Premier Health Employee Giving Campaign can achieve far greater things when it is combined with the gifts of our co-workers. For this reason, the theme of this year's campaign is **Premier Health Employee Giving – Making a Difference.**

If you are a regular contributor to the campaign, you already understand how valuable each gift can be to someone in need. Thank you for recognizing that the need is ongoing, and for your generosity again this year. As a donor, your gift will set the pace for others on your team. Thank you for leading by example. And please remind your team that they can direct their contribution to a special need that is close to their heart.

Each Foundation will make certain each gift is directed as requested, helping to fulfill our mission to deliver compassionate health care throughout our entire service area.

Because our impact is greater when we all give, please join us in completing the pledge form and returning it no later than June 15. Together, we make a difference!

In gratitude:

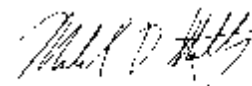

Jenny M. Lewis, President

*Miami Valley Hospital Foundation and
Good Samaritan Hospital Foundation*

Kathleen Scarbrough, President

Upper Valley Medical Center Foundation

Michael D. Stautberg, President

Atrium Medical Center Foundation

Here's how previous gifts have combined to make a difference:

- Employee Catastrophic Emergency Relief Funds have provided desperately needed aid to co-workers who experience a sudden and unexpected crisis.
- Education for employees and employees' children has been made possible through hundreds of scholarships.
- Community wellness has been enhanced by increasing access to care and making medications more affordable for patients in need.
- Purchase of new equipment and the expansion of services to increase the quality of patient care were made possible by employee giving.
- The in-your-neighborhood convenience of our Mobile Mammography Units has increased breast cancer screenings throughout our community.

My 2018 Employee Giving Campaign Pledge

Yes! I want to be there for our patients, families and co-workers when they need me.
Count me among the supporters of the 2018 Premier Health Employee Giving Campaign.

Premier Health Employee Giving

Name _____ Employee Number _____
Site Location _____ Department _____
