

FUND DESCRIPTIONS

Area of Greatest Need

Gifts to the Area of Greatest Need provide funds that can be utilized based on the needs of each hospital.

Employee Catastrophic Fund

The Employee Catastrophic Funds at each hospital offer financial assistance to our fellow employees who experience an unforeseen emergency.

Scholarships and Education

Each foundation awards scholarships and provides educational opportunities to employees, and/or dependents of employees.

Mission Funds

- **Atrium Medical Center Foundation – Kindness Multiplied**

The Kindness campaign focuses on four areas of greatest need as we continue to improve the care for our patients: heart care, specifically upgrading and improving cardiac catheterization technology; meet the growing needs of respiratory care with expanded services and upgrading pulmonary technology to care for patients; support for families who experience the loss of a child through our HEAL program; and resources to expand women's services.

- **Good Samaritan Foundation – Employee Well-being Fund**

The Good Samaritan Foundation Employee Well-being Fund will provide support in response to future staff needs at MVHN and SBHI. This will include employee spaces and respite areas, activities that increase staff knowledge and positively impacts staff morale, and other initiatives that promote employee well-being.

- **Good Samaritan Foundation - SBHI Staff Training & Resources Fund**

The SBHI Staff Training and Resources Fund provides educational opportunities and supplies for SBHI staff.

- **MVH Foundation – Employee Well-being Fund**

The MVH Foundation Employee Well-being Fund will provide support in response to future staff needs at MVHS, MVH Main, and its affiliates. This will include employee spaces and respite areas, activities that increase staff knowledge and positively impacts staff morale, and other initiatives that promote employee well-being.

- **MVH Foundation – Needy Family Fund (Fidelity Health Care)**

Provides limited-income families (as identified by Fidelity staff) with financial assistance to purchase necessary adaptive equipment and items to increase their independence and improve their quality of life.

- **UVMC Foundation – Cardiac Catheterization Lab**

Relocating, renovating and upgrading the Cath Lab to help the cardiac team provide the quickest and best care possible to our patients, ultimately saving more lives.

- **UVMC Foundation – New Women's Imaging Center**

A new Women's Imaging Center will allow UVMC to bring all the services our patients need into one area, allowing for a very efficient, personalized, and private experience.
